I'm not - working on a Frequent Questions page,

haven't received anything yet

**Subject:** take a look at what we've done on the site so far this morning...

- We've combined the update and news releases section into one called **Press Releases and updates**

<http://www2.epa.gov/goldkingmine/press-releases-and-updates-gold-king-mine-response>

- We encourage posting data in "sampling data" under **Data and Information**

<http://www2.epa.gov/goldkingmine/data-gold-king-mine-response>

- Jeff is working on a naming convention for data files. We shouldn't use regional

reference since it won't make sense to users like "Region X Surface Water Summary Table etc etc" but rather use state-centric language when possible.

- Jeff is working on a Frequent Questions page, we'll get that posted under the **Data and Information** section once it's live.
- Lastly, I'm trying to get approval for map viewer on the sampling data page. It's almost ready to go.
